

## **Corporate Governance Report**

### **Introduction**

OTP Bank Plc. (hereinafter: OTP Bank, Bank or Company) regards the development and maintenance of an **advanced corporate governance system** that conforms to local and international standards as being of primary importance. A reliable governance system, accurate financial planning, responsible management and the appropriate control mechanisms provide a stable basis for efficient and profitable operation.

To this end, the Bank is continuously reviewing and developing its corporate governance practices.

Our corporate governance practice is an important means of ensuring the **fulfilment of our strategic objectives**. Accordingly, within the effective statutory frameworks, we have developed a corporate governance system that simultaneously ensures the confidence and satisfaction of our customers, growth in shareholder value, and our socially responsible corporate conduct. There is no perfect, universally applicable corporate governance solution through which every goal can be achieved as efficiently as possible. For this reason we continuously monitor our governance practices, identifying any deficiencies arising as the result of external and internal changes, and effect those modifications that best serve the fulfilment of our objectives.

The resulting governance structure, optimised to suit our objectives, takes into account the special characteristics of our operations as well as the statutory, supervisory and stock-market requirements that apply to the Bank, while also endeavouring to comply with the related Budapest Stock Exchange (hereinafter: BSE) guidelines. The purpose of the BSE's corporate governance guidelines is for the governance and operating structures of stock exchange-listed companies to be **transparent and comparable** based on a uniform set of criteria. This enables investors, taking into consideration the special characteristics of a given company's operations, the complexity of its activities, and the statutory requirements related to its risk management and financial reporting, to make a well-founded judgement regarding the extent to which the given corporate governance practice ensures reliable and profitable operation.

Like all organisations that provide financial and investment services, the operations of the Bank are, to a high degree, regulated in statutory provisions. As a consequence, not only certain business activities, but our operations as a whole are regulated in detail and monitored by the authorities on a continuous basis. The individual internal control functions (risk management, compliance, and internal audit) have to conform to strict standards, and their effectiveness must be attested not only within the internal corporate governance system, but also to the satisfaction of the external supervisory authorities. All these factors guarantee purposeful, comprehensive and verified risk management procedures, as well as reliable and appropriately supervised data reporting. Therefore, our status as a financial and investment service provider requires us to implement complex and effective corporate governance practices that simultaneously ensure **responsible conduct towards clients and shareholders, reliable operation, and long-term profitability**.

## **1.) Statement on Corporate Governance Practice**

The Bank's operation fully complies with the provisions of the relevant statutory regulations, the decrees of the supervisory authorities and the regulations of the BSE. The structure and operating conditions of the Company are contained in the Articles of Association, which are approved by the General Meeting.

### **1.1. General Meeting**

The supreme body of the Bank shall be the General Meeting consisting of the shareholders. The Articles of Association regulate the manner of convocation and operation of the General Meeting, the manner of participation, and of the exercise of voting rights.

The General Meeting shall be convened at least once annually by the Board of Directors.

### **1.2. Management Bodies**

#### **1.2.1. Board of Directors**

The Board of Directors is an executive body elected by the General Meeting of the Bank. The Board of Directors shall be entitled and obliged to make all decisions which are not within the competence of the General Meeting, the Supervisory Board or the Audit Committee as defined by law, the Articles of Association, or a resolution of the General Meeting.

The liability of the Board of Directors extends to the operation of the entire Company, as part of which the Board's main tasks include the approval of the Company's strategy, annual report, major organisational restructurings and policies, as well as making other significant company law-related decisions. In its objectives and activities, particular emphasis is placed on increasing shareholder value, profitability and efficiency, and on managing risks and complying fully with external requirements – in other words on ensuring the most effective enforcement of business, ethical and internal control policies. The scope of its authority is defined in the effective statutory provisions, the Company's Articles of Association, General Meeting resolutions, and the Organisational and Operational Regulations. Its rules of procedure include the legal status and composition of the Board of Directors, as well as the regulations applicable to its operation and decision making.

All the obligations and prohibitions specified for executive officers under Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (Credit Institutions Act) apply to the members of the Board of Directors.

The Board of Directors has an executive role in the governance of the Bank, and this is reflected in its members' remuneration, an important element of which is the share-based honorarium, which serves to harmonise the interests of the board with those of the shareholders.

It oversees the Company's operative management through the Chairman & CEO. The Chairman & CEO is authorised to decide in all matters that do not, pursuant to the Articles of Association, fall within the scope of authority of the General Meeting or the Board of Directors. The employer's rights related to the executive officers of the Company are in general exercised by the Board of Directors as a corporate body, with the proviso that in the case of the deputy CEOs, employer's rights are exercised through the Chairman & CEO, and the prior notification of the Board of Directors is required for their appointment and for the withdrawal of their appointment.

In view of the fact that the Board of Directors also has an important role to play in overseeing the work of the management, it is of substantive importance that **the principle of a majority of external (non-executive) members be implemented in respect of the Board of Directors** (4 executive members, 7 non-executive members). The makeup of the Board of Directors ensures that professional expertise, experience, and a degree of impartiality that goes beyond the above-mentioned independence requirement, are brought to bear in equal measure in the decision-making processes.

### **1.2.2. Supervisory Board**

At the Bank, in line with the two-tier governance structure, the Supervisory Board – as a body elected by the General Meeting – performs the oversight of the Company's management, business activity and legal operation and fulfils the responsibilities assigned to it by the Credit Institutions Act.

In accordance with the legal provisions – the principle of a majority of independent (non-executive) members is fully enforced in respect of the composition of the Supervisory Board. The ratio of independent (non-executive) Supervisory Board members (4 persons) to the total number of Supervisory Board members (6 persons) is 67%.

The rules applicable to the appointment and recall of the employee delegate of the Supervisory Board are defined by the Works Council operating at the Company, and the Company does not consider such a member to be independent.

In order to avoid conflicts of interest, the General Meeting may not appoint the members of the Board of Directors and their close relatives to the Supervisory Board.

The Supervisory Board determines and approves its own rules of procedure.

The liability of the Supervisory Board extends to the supervision of the lawfulness of the Company's operation, its business practices and management, including the control of the Company's internal audit unit. The Supervisory Board exercises a preliminary right of consent in respect of decisions relating to the establishment and termination by the employer of the employment of, and well as the determination of the remuneration of, the head of the internal audit unit, and the prior consent of the Supervisory Board is required for the removal of the head of the unit performing the compliance assurance function and the head responsible for risk control functions.

### **1.6. Internal control system**

The appropriate functioning of the internal control system is provided for, at bank-group level, in accordance with the relevant statutory regulations and in keeping with the relevant Recommendations. The internal control system, alongside responsible corporate governance, is a cornerstone of the internal lines of defence that promote prudent, reliable and effective operation in accordance with the statutory regulations and internal regulations, protects the economic interests and social objectives of the customers and the owners and ensures continued trust in the Company.

It is a basic expectation concerning the operation of internal control functions that they should operate in a way to provide support to the senior management in making sound decisions.

### **Internal control functions**

With regard to the lines of defence, the Bank uses the so-called "three lines of defence" model to manage risks and implement internal controls. The three lines of defence are (i) functions responsible for and managing risks (first line); (ii) functions exercising control over risks (second line) and (iii) functions providing independent assurance (third line). The second and third lines of defence together constitute the internal control functions.

The first line of defence has principal responsibility for risks related to the operation of the organisation, so its appropriateness is primarily ensured by employees and operational managers.

The second line of defence monitors and assists in the controls implemented on the first line of defence in order to implement the provisions of legislation and internal regulatory documents.

The functions of the second line of defence are independent risk management, risk control, compliance assurance and certain security internal controls.

The purpose of independent risk management, separated from the operational risk management area, is to identify, measure, regulate and manage credit, market and operational risks, to ensure appropriate reporting, and to participate in developing the risk management strategy and making risk management decisions.

The central task of the risk control function is to provide an overview of the risks assumed by the Bank and the banking group, and to monitor the operation of the risk management system. In the course of its activities, the risk control function continuously monitors the risk exposure of the Bank and the banking group and compares it with the strategy, risk appetite, risk management policy and limit system. The purpose of operating a compliance assurance function is to identify and manage compliance risks<sup>3</sup>. The compliance assurance function is performed by the Compliance Directorate. It carries out its activities in accordance with legal regulations and best industry practices, the main focus of which is the control and management of data protection, consumer protection, ethical, conflict of interest, sanction, and capital market compliance risks.

As part of its function as a second line of defence, the IT and Bank Security Directorate manages the risks of money laundering and terrorist financing, financial crimes and cyber risk, as well as risks related to fraud prevention in the case of non-credit risks.

The third line of defence is the independent internal audit, which provides independent and objective assurance in order to achieve the goals and carry out the tasks of the Bank, effectively helps the lawful

---

<sup>3</sup> "Compliance risk" means any legal risk, supervisory or other official sanctions, significant financial loss, or reputational damage that may arise as a result of non-compliance with the legislation applicable to the financial institution, as well as other non-legislative acts and regulations and internal regulations.

and effective management of assets and resources, and the protection of property. It reveals deviations from the requirements and regulations, helping to reduce the possibility of the occurrence of high-risk events and making actionable recommendations to the management, and then checks compliance with them. The independent internal audit function and the professional supervision of the internal audit units of group members covered by the Single Internal Audit System are performed by the Audit Directorate.

The Risk Control Function prepares a summary report on its activities and the risk control activities carried out by the Credit Approval and Risk Management Division quarterly for the Risk Assumption and Risk Management Committee and annually for the Board of Directors and the Supervisory Board.

The Compliance Directorate reports quarterly on the activities to the Management Committee, the Risk Assumption and Risk Management Committee, and the Board of Directors, as well as annually to the Supervisory Board.

The IT and Bank Security Directorate reports annually on its activities to the Management Committee, the Board of Directors, and the Supervisory Board. It reports quarterly on its activities in the field of combating money laundering and terrorist financing to the Management Committee, the Board of Directors, and the Supervisory Board.

The Audit Directorate reports on its activities to the Management Committee, the Board of Directors, and the Audit Committee, and also presents submissions to the Risk Assumption and Risk Management Committee.

The tasks performed by the internal control functions (second and third lines of defence) and the principles of cooperation and coordination between the Bank's central organisational units are detailed in the Organisational and Operational Regulations.

The internal control functions are independent of the audited organisational units and of one another. Close cooperation and communication between the management of the first and second lines of defence and the third line of defence (internal audit) ensures that there are no duplications, overlaps or uncovered areas in terms of controls. The cooperation of internal control functions takes place in several forms: joint participation in the work of certain committees, multilateral or bilateral cooperation, and the Internal Controls Forum as a cooperation forum of internal control functions. The Internal Controls Forum is a consultative forum for knowledge sharing and information exchange by the control functions belonging to the second and third lines of defence, and it aims to enhance the operational efficiency of the internal control functions through synergies and thus the continued prudent operation and long-term development of the banking group's activities.

## **Risk management**

The basis for effective group-level risk management is the operating of a standardised, 'OTP-compliant' regulations and procedures at the group members concerned. The Company has detailed risk management regulations that include every type of risk (credit, country, counterparty, market, liquidity, operational, compliance) which are consistent with the statutory regulations pertaining to prudential banking operation. OTP Bank Plc. has developed and operates a Unified Internal Audit System consistently throughout the bank group, proportionate to the size of the OTP Group and the market share of the Company. In addition to the audits covering the entire parent bank and the branch network, the Unified Internal Audit System includes owner audits conducted at the foreign and domestic group members as well as the professional oversight of the internal audit units of the financial institutions that are subject to consolidated supervision as specified in the Credit Institutions Act. As a means to this end, uniform internal control procedures and methodologies have been developed and applied, and their continuous development is being carried out.

The independent internal audit unit also liaises regularly and cooperates with external auditing bodies.

The annual activities of the independent internal audit unit are set out in the annual audit plan approved by the Supervisory Board. The annual plan is prepared using a risk-based and process-oriented approach, keeping in mind the coverage of the audit universe and the focus on the areas with major risk exposures, with a particular emphasis on reporting and data controls, and the Company's latest strategic priorities.

The independent internal audit unit has unrestricted access to the information, documents and data needed to carry out the audits, and receives continuous information on any and all changes in the structure, risks and priorities of the group.

An annual internal audit plan is prepared at group level on an annual basis as well as reports on its implementation, the performance of the tasks stipulated in this plan, the audits conducted and other activities and the circumstances of the organisation's operation, as well as on any changes to the internal audit system.

The internal audit unit reports annually to the Supervisory Board, the Board of Directors and the Risk Assumption and Risk Management Committee with the prior opinion of the Audit Committee, on the operation of risk management, internal control mechanisms and corporate governance functions. #### ***1.10. Brief description of the rules related to the conducting of the General Meeting***

The Company requests a shareholder identification procedure for the date of the General Meeting (including any repeated General Meeting), as a corporate event, from the KELER Zrt. The shareholder identification procedure may take place only in the period between the 7th and 5th trading day at the stock exchange prior to the General Meeting (including any repeated General Meeting). The rules pertaining to the shareholder identification process are set out in the latest effective regulations of KELER Zrt.

The Company, at 18:00 Budapest time on the second working day before the General Meeting (or repeated General Meeting), deletes all the data in the Share Register and at the same time registers the results of the shareholder identification process in the Share Register, and closes it with the results of the shareholder identification. After this any entry related to the shareholder's holding may only be made, at the earliest, on the working day following the closure of the General Meeting or following the day of the non-quoted General Meeting.

The General Meeting must be announced in the manner specified in respect of announcements made by the Company, at least 30 days before the projected date of the General Meeting, unless otherwise stipulated in the Civil Code and the Credit Institutions Act. The (extraordinary) General Meeting, that is to decide on a capital increase necessary in order to avoid the proceeding referenced in Section 135 (2) of the Credit Institutions Act, can be announced at least 10 days before the projected date of the meeting.

The invitation must include the following:

- a) the Company's official name and registered office;
- b) the date and place of the General Meeting;

- c) the manner in which the General Meeting is to be held;
- d) the agenda of the General Meeting;
- e) the provisions contained in section 8.5 of the Articles of Association, with the reminder that shareholders may participate in and vote at the General Meeting only in compliance therewith;
- f) information about the place and date of the handing over of the letters of proxy;
- g) in the event that there is no quorum, the place and date of the reconvened General Meeting,
- h) the time of ownership verification process and closure of the Share Register,
- i) the fact that in order to exercise shareholder's rights the shareholder must be listed in the Share Register at the time of its closure, but subsequent to this the shares may be freely traded without this affecting the ability to exercise shareholder's rights,
- j) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to request information,
- k) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to supplement the agenda of the General Meeting, and
- l) information regarding the time, place and means (including the address of the Company's website) of accessing the motions and proposed resolutions on the agenda of the General Meeting.

Questions not listed on the agenda may be discussed by the General Meeting only if all shareholders are present and they give their unequivocal consent thereto.

The General Meeting is regarded as having a quorum if the votes of the attending shareholders represent more than one-third of the total votes embodied by shares entitling the holder to vote.

If a duly convened General Meeting does not have a quorum, then the repeated General Meeting – convened for the time and date and venue specified in the announcement that is published in accordance with section 8.13 of the Articles of Association – shall have a quorum in respect of the agenda items set forth in the invitation irrespectively of the extent of the voting rights represented by those in attendance. The repeated General Meeting can be convened with the same start date as that of the General Meeting without a quorum. The repeated General Meeting shall be convened no later than twenty-one days after the day of the General Meeting without a quorum. If the agenda of the General Meeting includes a proposal relating to the withdrawal of the shares from any regulated market (hereinafter: delisting), then the repeated General Meeting shall have a quorum in respect of such agenda item if shareholders representing more than half of the votes embodied by the shares conferring voting rights are in attendance.

If a General Meeting that has a quorum cannot pass a resolution in respect of all the items on the agenda, it may decide to suspend the meeting and to convene a follow-up General Meeting, while indicating the new time and place. The General Meeting may only be suspended once, and the follow-up General Meeting must be held within 30 days of the suspension.

In respect of the quorum of a suspended and then reconvened General Meeting (follow-up General Meeting), the general rules apply. The follow-up General Meeting may pass decisions only in respect of the announced agenda items of the original General Meeting in respect of which the original General Meeting did not make a decision.

The General Meeting is chaired by the Chairman of the Board of Directors or another person designated by the Board of Directors who

- opens the General Meeting;
- appoints the person responsible for taking minutes;
- determines whether the General Meeting has a quorum;
- gives and revokes the right to speak;

- formulates resolution proposals and puts them to the vote;
- announces the result of the vote on the basis of the results indicated by the vote counters;
- announces the intermission; and
- closes the General Meeting.

Prior to the opening of the General Meeting, shareholders who have voting devices may notify the Chairman of the General Meeting in writing if they would like to speak in relation to any of the agenda items. The comments made by the shareholders may not be on a topic that is different from the designated agenda item. The Chairman of the General Meeting must grant the right to speak to persons who have indicated their desire to speak in accordance with the above.

The Chairman of the General Meeting may determine the order in which the comments on the given agenda item will be heard, may grant any person the right to speak or may retract such right, with the proviso that the right to speak may be retracted from a shareholder who has indicated his/her wish to speak in writing only if the shareholder's comments depart from the given agenda item despite a warning in this regard. The Chairman of the General Meeting may prohibit the recording in the minutes of comments that are made after the right to speak is retracted, and may terminate the availability of the technical conditions (microphone) for making such comments.

The Chairman of the General Meeting may decide to hold the General Meeting in private, and, with the exception of the members of the Board of Directors, the managing directors specified in the Credit Institutions Act, the members of the Supervisory Board, the auditor, shareholders with voting terminals, and the representatives of such shareholders as well as the representatives of the MNB and the BSE, he may exclude anyone from attending the General Meeting.

The General Meeting passes its resolutions, unless the Articles of Association stipulate otherwise, through a simple majority of the votes of the attending shareholders.

Decisions at the General Meeting are made by open vote.

In its first resolution, the General Meeting selects, from the list proposed by the Chairman of the General Meeting, the attending shareholders who will act as the authenticator of the minutes and the vote counters. In the case of an unsuccessful vote the Chairman of the Meeting must submit a new proposal.

Minutes must be taken of the General Meeting, which must include the following:

- the Company's official name and registered seat;
- the date and place of the General Meeting and the manner in which it is held;
- data necessary for determining whether the General Meeting has a quorum and changes in the number of persons attending;

- the draft resolutions, in the case of each resolution the number of shares with respect to which valid votes have been cast, the share represented by these votes in the share capital, the number of votes for and against the proposals and the number of those who abstained;
- objections to a resolution by any shareholder and any member of the Board of Directors or the Supervisory Board if the person objecting requests it himself;

The minutes are signed by the Chairman of the General Meeting and the person taking the minutes and are authenticated by an attending shareholder who has been selected for this purpose.

The Board of Directors must send the Company Court an authenticated copy of the minutes of the General Meeting within 30 days after the General Meeting is adjourned, together with the attendance register and the documents that certify that the General Meeting was properly convened.

Further details are contained in the Articles of Association published on our website.

The General Meeting was held on 13 April 2022, in accordance with the general rules and in the traditional manner, with the personal participation of shareholders, subject to the provisions of Section 3(1) of Government Decree 502/2020 (XI. 16.) reintroducing various provisions on the operation of partnerships and companies with share capital, and also taking into account Act I of 2021 on protection against the coronavirus pandemic.

### **1.11. Declaration on Remuneration**

The purpose of this section is to provide the General Meeting of the Bank with information on Act LXVII of 2019 on the promotion of long-term shareholder participation and the amendment of certain laws for the purpose of legal harmonisation (hereinafter: "SRD II Act"). This law is the adaptation in Hungary of Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 amending Directive 2007/36/EC as regards the encouragement of long-term shareholder engagement (SRD II). Pursuant to Section 16 (1) of the SRD II Act, the Bank had established a remuneration policy for directors in accordance with the provisions of the Act, which was approved by the Bank's Board of Directors, acting under the authority of the Bank's General Meeting convened for 30 April 2020, through its Resolution No.92/2/2020 passed by a vote of opinions (hereinafter: "Remuneration Policy").

Pursuant to Section 16 (1) of the SRD II Act, the Bank applies the Remuneration Policy to directors. The personal scope of the Remuneration Policy extends, in accordance with this provision, to the members of the Bank's Board of Directors, Supervisory Board and Audit Committee, as well as to the Chief Executive Officer and Deputy Chief Executive Officers of the Bank (hereinafter: "Directors")

According to the provisions of SRD II Act (Section 16 (2)), the remuneration policy shall contribute to the company's business strategy and long-term interests and sustainability, and shall explain how it does so. To facilitate all of the above, the Bank's Remuneration Policy and Practice includes the following:

- The managers' remuneration is based on value creation. It encourages high performance and appropriate risk-taking in line with the Bank's strategy, as well as a responsible behaviour serving the long-term interests of the Bank (e.g. developing incentives, through the creation of a performance measurement scheme and the use of financial and non-financial indicators, that aligns the managers' individual interests with the Bank's long-term interests).
- The share-based honorarium and performance-based remuneration ensure consistency between the individual interests of the executives and the long-term interests of shareholders and the company, by guaranteeing the long-term commitment of the beneficiaries of share-based honorarium and performance-based remuneration and their commitment to the Bank's sustainable and long-lasting success.
- The objective is to ensure that the Bank's senior management consists of executives with the appropriate skills and competences and with a good business reputation, who contribute to the implementation of the Company's long-term success and strategy (including, in particular, the application of selection criteria aligned with these values and of a competitive wage system adjusted to market conditions, qualifications and the complexity of the tasks, in an effort to attract and retain the appropriate executive staff).

- Provisions intended to ensure several years' deferral of performance-based remuneration and its subsequent risk adjustment also promote long-term value creation and sustainability, as well as ethical behaviour. These provisions examine eligibility for performance-based remuneration not only at the time that it is awarded, but also before each deferred instalment is paid (in every year of the deferral cycle), thereby ensuring that the performance measurement process is indeed based on long-term results and, where appropriate, any disbursed performance-based remuneration can be reclaimed.

Pursuant to Section 16 (3)-(4) of the SRD II Act, the remuneration policy must be clear and comprehensible, with the proviso that the company is not obliged to make public in the remuneration policy information the disclosure of which would seriously compromise its business interests or its rights to business secrecy. In our opinion, with an accurate, comprehensive and easy-to-understand description and clear wording of the rules, the Bank's Remuneration Policy complies with the aspects of clarity and comprehensibility.

Section 16 (5) of the SRD Act II stipulates that the company may pay the directors remuneration only on the basis of a remuneration policy submitted to the General Meeting for a vote of opinions, in accordance with the provisions of Section 3:268 (2) of the Civil Code.

The Bank ensures compliance with this provision by the Remuneration Policy having been approved by the Board of directors, acting under the authority of the Bank's General Meeting convened for 30 April 2020, through Resolution No. 92/2/2020. In view of the fact that, pursuant to Section 29 (3) of the SRD II Act, the Remuneration Policy was to be adopted in 2020 and was required to be applied for the first time to the year 2021, only payments made after 1 January 2021 were relevant in terms of compliance, after which date no payments were made in non-compliance with the provisions of the Remuneration Policy.

The Remuneration Policy contains all the content elements listed in Section 17 (1)-(3) of the SRD II Act, as follows:

- The specification of the various fixed and variable components of the remuneration, including all forms of remuneration and other benefits that may be provided to directors, indicating their relative proportions, is comprehensively set out in Sections II and III of the Remuneration Policy.
- The description of how the remuneration and employment conditions of the company's employees were taken into account during the elaboration of the remuneration policy is contained in Section VIII of the Remuneration Policy.
- The duration of the contracts concluded with the directors for employment or performance of office and the related remuneration, the applicable notice periods, the main characteristics of supplementary pension or early retirement schemes, as well as the terms of the termination and payments linked to termination are contained in Section IV of the Remuneration Policy.
- The presentation of the decision-making process followed for the determination, review and implementation of the remuneration policy, including, measures to avoid or manage conflicts of interests, as well as the role of the remuneration committee or other committees concerned is contained in Section IX of the Remuneration Policy.
- In connection with share-based remuneration, the vesting periods, possibly the retention of shares after vesting, and an explanation of how share-based remuneration contributes to the company's business strategy, long-term interests and sustainability are set out in Chapter V of the Remuneration Policy.
- In respect of variable remuneration, the clear, comprehensive and varied criteria for the award of the variable remuneration and the applicable financial and non-financial performance criteria

– including in particular criteria relating to corporate social responsibility – and an explanation of how they contribute to the Company’s business strategy, long-term interests and sustainability, as well as the methods to be applied to determine to which extent the performance criteria have been fulfilled are contained in Section VI to the Remuneration Policy.

In connection with these criteria, it needs to be emphasised that the objectives defined in the Remuneration Policy must be sufficiently long-term and comprehensive to ensure that they remain standard and relevant in a continuously changing business environment even over several-year cycles, and that their public accessibility does not prejudice the Bank’s legitimate business interests (in line with Section 16 (4) of SRD II Act).

The Bank uses a KPI library containing some 120 quantitative and qualitative objectives, and each of the objectives defined in this KPI library in respect of the Directors corresponds to a comprehensive criterion set out in Section VI of the Remuneration Policy. In each case, the specific objectives of a given Director are selected from the objectives contained in the KPI library, which, in the given business year, clearly define the business objectives relevant to the area of responsibility of the Director concerned. Nevertheless, the objectives set for the Directors always follow the two-tier objective structure set out in the Remuneration Policy (both institutional and individual objectives are to be defined). In accordance with the provisions set out in the Remuneration Policy, these objectives also include objectives related to corporate social responsibility.

- In connection with variable remuneration, information on any deferral periods and on the possibility for the company to reclaim variable remuneration is set out in Section VII of the Remuneration Policy.

Section 17 (4) of the SRD II Act stipulates that, in the event that the remuneration policy is revised, the revised policy must describe and explain all significant changes occurred since the most recent votes by the general meeting of shareholders, as well as a presentation of how it takes into account the votes and views of shareholders regarding the remuneration policy and the reports. As the Remuneration Policy was first adopted in 2020 and, according to Section 3:268 (2) of the Civil Code, only needs to be put on the agenda of the General Meeting “in the event of a significant change thereof, but at least every four years”, the possibility of revising the policy has not arisen to date, as there have been no significant changes to the Remuneration Policy since its adoption. Accordingly, this section of the SRD II Act has not been applied to date.

Pursuant to Section 17 (5) of the SRD II Act, departures from the remuneration policy are only accepted in exceptional cases, and temporarily. Since the application of the adopted Remuneration Policy started on 1 January 2021, there has been no departure from the prescribed rules, so compliance with the law can be established in this respect as well.

Section 18 of the SRD II Act stipulates that, after the vote on the remuneration policy at the general meeting, the remuneration policy together with the date and the results of the vote must be made public without delay on the website of the company, and that the remuneration policy must remain publicly available, free of charge, at least as long as it is applicable. The Bank complies with the above requirements, as the Remuneration Policy was published immediately after its approval – together with the decision adopting it – and it is still available free of charge (starting from page 60) at the following link:

Pursuant to Section 22 (2) of the SRD II Act, the provisions of the SRD II Act applicable to remuneration reporting shall apply to credit institutions and investment firms only if this is requested by Magyar Nemzeti Bank in its resolution. In the absence of such a decision, the Bank shall continue to fulfil its obligation to disclose information in compliance with Article 450 of Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 ("CRR"). The Bank fulfilled the above obligation to

disclose information in 2022 as well. The published remuneration information is available at the following link (pages 70-78 of the document):

### **1.12. Evaluation of the work of the Board of Directors, the Supervisory Board and the management**

In accordance with the expectations of the supervisory authority, the execution capabilities of the Board of Directors, the Supervisory Board and the management were evaluated with respect to the affected managers, in the framework of the 2022 annual performance evaluation. The evaluation was performed along the following dimensions: business thinking, business and operational development, governance, relationship and resource management, integrity and personal drive. Based on the results of the evaluation, no issue has arisen that would necessitate action.

Within the group of managers concerned, during the evaluated period – based on the conflicts of interest policy, code of ethics, or human risk criteria – no conflict of interest or issue relating to the independence of the managers has arisen.

### **1.13. Description of the diversity policy applied with respect to the undertaking's administrative, management and supervisory bodies**

The Bank defines and regulates the requirements relating to executive officers in compliance with the requirements and guidelines under European Union and domestic law that fundamentally determine the operation of credit institutions.

When nominating the members of its management bodies (Board of Directors, Supervisory Board) the Bank, and when appointing the members of the Management, the Board of Directors, gives priority to the possession of professional expertise, advanced interpersonal and management skills, varied academic qualifications, wide-ranging business experience and good standing, but they are also strongly committed to taking effective steps to ensure diversity in connection with the Company's operation, including efforts to steadily improve the rate of participation by women. Without prejudice to the above principles, the Bank also strives to ensure that both genders are represented among the candidates during the selection process for members of management bodies. In 2021, the Bank's Nomination Committee adopted the Bank's Gender Equality Strategy, which is available at the link below:

The Bank's Nomination Committee constantly monitors the applicable European Union and domestic regulations, with the purpose of taking the necessary steps without delay should clearly expressed expectations be announced. The Bank's current strategy is to have at least one female member on both the Management Board and the Supervisory Board.

It should be borne in mind, however, that as a public limited company the election of members of the management bodies is the exclusive prerogative of the General Meeting, over which the Bank has no substantive influence beyond fully complying with the above criteria.

Pursuant to the Bank's Articles of Association, a Board of Directors with 5-11 members and a Supervisory Board with 5-9 members operate at the Bank. The present Board of Directors has 11 members, including one female member, while the Supervisory Board has 6 members, including one female member. The Bank's senior management currently consists of 7 persons, none of whom are women.

#### **1.14. Legal background**

The Bank Group complies with the prevailing corporate law and prudential legal provisions during its operation. OTP Bank Plc., which acts as the controlling credit institution, controls the members of the Bank Group with consideration to Hungarian law and the local law pertaining to each foreign subsidiary. As a credit institution subject to consolidated supervision, OTP Bank is also responsible for ensuring prudent operation, and compliance with risk-taking and capital adequacy regulations for the entire group of enterprises under its controlling influence.

Pursuant to Section 3:112 (3) of the Civil Code, the Bank may give instructions to the executive officers of single-person companies owned 100% by the OTP, which the executive officer is obliged to comply with.

#### **1.15. Group structure**

The Bank Group includes OTP Bank, its Subsidiaries and all Companies operating in Hungary or abroad in which OTP Bank or its Subsidiaries have, directly or indirectly, Controlling Interest or Minority Interest.

#### **1.16. Group governance**

##### **Features of the governance model**

OTP Bank Group has been using the group governance matrix model for many years, which uniformly applies to the Hungarian and foreign members of the banking group, regardless of their activities, and also serves as a model for the Majority Parent Companies Directly Held by OTP Bank.

Parts of the Bank Group Governance Matrix model:

- a/ Ownership Governance
- b/ Specialised Area Governance, and
- c/ the organisational unit responsible for the development of the Group Governance Model.

OTP Bank's mission is to operate a transparent, prudent, effective and efficient banking group based on uniform principles, in a model that also takes into account the particularities of each member of the banking group.

The model is based on following the transparent goals and principles of the Parent Company, on the controlled autonomy of banking group members operating in accordance with them, and on prudent operation compliant with EU, national and sectoral legislation and requirements.

In the governance model of the OTP Bank Group, a shift towards deeper integration can be observed, where the Parent Company provides strategic control and professional/functional guidance and cooperates with the members of the banking group.

##### **Types of governance**

OTP, as the Banking Group Parent Company, governs the banking group through professional cooperation and enforcement of the owner's interests.

OTP Bank, as a top-level Bank Group Parent Company which is a credit institution, is responsible for ensuring prudent operation and compliance with risk-taking, liquidity and capital adequacy standards for the Banking Group Member Companies as a whole.

*Ownership governance* means the direct enforcement of interests, the exercise of the rights of ownership of the parent company as enshrined in law. Ownership Governance serves the implementation of OTP Bank's expectations and decisions at the Bank Group Member Companies (in accordance with the applicable legislation and regulations of competent authorities).

The parent bank enforces its interests as owner at the general meeting and through the governing bodies and chairpersons of the subsidiary's governing body.

*Specialised Area Governance* is governance, knowledge sharing, operational support and control substantially separated from Ownership Governance – based on the outstanding professional knowledge accumulated by OTP Bank and the Banking Group –, which is typically realised through the communication of the position or opinion of the Parent Company.

The purpose of Specialised Area Governance is to share the tried and true methods and processes used by the Functional and Business Departments of OTP Bank, as the Banking Group's Parent Company, as well as other Banking Group Member Companies, with other Banking Group Member Companies. An additional goal is to put them into practice to ensure that the Banking Group Member Company demonstrates outstanding professional standards and to promote effectiveness at the banking group level.

It is the task and responsibility of the given specialist banking department of OTP to develop the tools, methods and processes that fall within the scope of Specialised Area Governance, and to ensure that the Banking Group Member Companies operate in accordance with them.

In order to coordinate and develop group governance activities, the Parent Company operates a special organisational unit dedicated to the development of the group governance model (Governance Model Management Department).

### **1.17. Operating structure**

#### **Managers of the Bank's operation based on organizational hierarchy**

The Chairman & CEO controls and supervises the Bank's daily operation in order to ensure that it takes place within the framework of the law and the Bank's Articles of Association and in accordance with the decisions of the General Meeting and the Board of Directors.

The Chairman & CEO directs the work of the Bank's Board of Directors in accordance with the Articles of Association and the Board of Directors' Rules of Procedure. As the Chairman of the Board, he mediates the owner's demands to the Bank's management.

The Bank's central organisation is divided into functional organisational units.

Under the direction of the Chairman & CEO, each of the central specialised fields and functions, with due regard to their logical and professional connections, are managed by Deputy CEOs (Heads of Divisions) with the exception of areas under the direct management of the Chairman & CEO.

Deputy CEOs are responsible for managing the specialised fields and/or special tasks entrusted to them. They ensure that the units under their direction contribute, in a manner and to the extent appropriate to their competence, to the effective operation of the Bank by fully completing the tasks under their responsibility.

### **1.18. Reporting lines**

The reporting pathways of the Bank are well regulated and documented both within the Bank Group and concerning outsourced activities.

The Group Operational Risk Management Committee is responsible for the appropriate operation of the reporting pathways required by law and expected by the management.

### **1.19 ESG organisation**

In November 2020, the Bank's Management Committee launched the Bank's ESG Programme, in which all ESG-related areas of the Bank, including units concerned by matters of climate change and exposed to environmental risk, actively participated. The Program also had steering and operational committees. The ESG Steering Committee reported regularly to the Bank's governing bodies on the Programme's activities and achievements. In 2021 as per the 5/2021 (IV.15.) MNB Green Recommendation, a conceptual proposal was prepared for the establishment of the functional units that constitute the Bank's standing ESG organisation, the ESG Committee, the ESG Sub-Committee and the ESG control function, which was discussed and unanimously approved by both the Management Committee and the Board of Directors. With the decision of the Board of Directors on 17 November 2021, the ESG Committee and the ESG Sub-Committee were included as standing committees in the Organisational and Operational Regulations, and the tasks – among others, the relevant risk management and control –, responsibilities and reporting obligations of the relevant organisational units were defined. The ESG Committee is responsible for defining the ESG strategy, plans and policies of the Bank and the Bank Group. The ESG Committee gives its prior opinion on all ESG-related proposals to be submitted to the governing bodies. The ESG Sub-Committee is the standing decision-preparation forum of the ESG Committee, and performs coordinating, consulting and implementing duties in the context of its technical support work. The ESG control function is intended to ensure compliance, on the one hand, during ex ante and/or ex post controls in accordance with the set of criteria to be established, with regard to the (possible) brown elements of the loan portfolio, and on the other hand, by minimising the reputational risks that may arise in connection with greenwashing. The National Bank of Hungary (MNB) found the solution for the ESG organisation adequate. Pursuant to MNB's Green Recommendation No. 10/2022 (VIII.2) (which repealed the previous recommendation of the same name), the Bank reviewed the structure, tasks and responsibilities of the organisation.
